AUTEX® HORIZON

HERE'S WHAT YOU'LL LOVE:

Delivering excellent acoustic performance, Horizon’s adjustable system allows you to set the suspension height with ease giving you the ability to target multiple frequency levels within the chosen space. Horizon can also be clipped to walls as a demountable acoustic panel without the need for adhesives.

Highly durable, Horizon is manufactured using high recycled content and is also recyclable at the end of its life. UV stabilised and resistant to colour fade, it’ll always look as good as the day it was installed.

PRODUCT DESCRIPTION

WHAT YOU NEED TO KNOW ABOUT HORIZON

Introducing the latest innovation in suspended acoustic solutions, Horizon™; allowing shapes to appear floating from ceilings and walls while increasing acoustic performance. With 5 geometric shapes, slick finished edges and clean hidden fixings, Horizon allows an easy yet good looking feature for any space.

Utilising our sophisticated channels, clips and suspension wires, Horizon can be installed on ceilings and walls without the need for clear space, as minimal contact is made between the panel and the

surface area; providing floating aesthetic.
