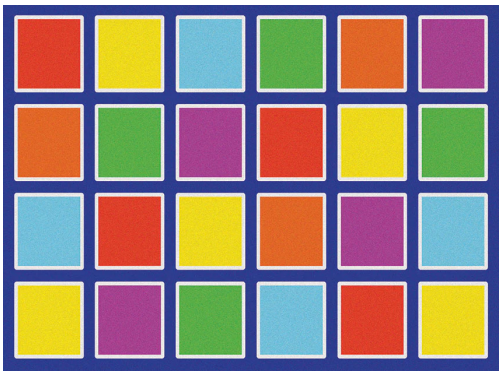
# COLOUR SQUARES PLACEMENT RUG - 24 SQUARES

**SKU:** N/A

## GALLERY IMAGES



## PRODUCT DESCRIPTION

**Elizabeth Richards school rugs are at the centre of the flexible learning experience. They are a gathering place – a place for the whole class to meet, small groups to collaborate, and for kids to build one-on-one connections.**

Elizabeth Richards classroom carpets and rugs will make your classroom an inviting place for inspired learning. A must-have for every classroom from early childhood settings through to High School break-out rooms and libraries. Our rugs are ideal for setting up learning spaces and defining zones. Your classroom library will have its own designated reading zone with an Elizabeth Richards classroom mat or you can place our rugs at the front of the classroom for collaboration, reflection, guided or independent learning.

Our Colour Squares Placement Rug (24 squares) is as colourful as it is functional. With 24 bright primary-coloured individual squares (green, blue, orange, magenta, yellow and red) each measuring 40cm x 40cm, there’s a place for every child. Made from high quality cut pile polyester blend with a non-slip latex backing, Elizabeth Richards classroom rugs will withstand heavy foot traffic. Each rug is soil resistant and easily wiped down or vacuumed to maintain the vibrant colour.

Elizabeth Richards classroom mats were designed for Australian classrooms to enhance a flexible learning environment. Our Scoop Rockers (ERPSR4), Lap Desks (ERSLD4M) and Dry Erase Folding Lap Desk (ERDEFLD) can all be used by children while seated on a classroom rug, offering kids the opportunity to make choices about how they learn best.

### Applications and Use

- Elizabeth Richards classroom rugs are perfect for flexible classroom seating
