The Nano90 has 4 code levels:
8 Digit Master Code
8 Digit Sub Master Code
6 Digit Technician Code
4 Digit User Code

- **Private or Public Function**
- **Private Function** ? This function is used where the same code will be repeatedly used. e.g. an employee with the same locker.
- **Public Function** ? This function is used for short-term, multiple occupancy applications.
  The user enters a personal four-digit code, this locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. e.g. hot desking in an office environment, library or fitness centre.
