

DAVELL LOCKER PLINTHS

FEATURES

- Elevates the lockers 75mm off the ground for easier access
- Manufactured from 1.5mm zinc coated steel (also available in stainless steel for extreme environments)
- Adjustable feet allows the plinth to be levelled prior to placement of lockers
- Plinths can be joined together to form one continuous run
- Easily relocated and reconfigured
- Primed and powder coated
- Colour matched to suit lockers or contrasting colour if required

Suitable for Davell manufactured lockers only
