

DAVELL MOBILE PHONE CHARGING LOCKERS

Davell's Mobile Phone Charging Lockers are in use across many organisations and industries, from Department of Defence locations Australia wide, to a large number of schools, offices, mine sites and hospitality locations. Incorporating a range of design features to ensure valuables are secured in the safest possible way.

Also available with ?shatter resistant? clear acrylic doors.

Mini Lockers with built-in charging facility for mobile phones.

Each compartment contains a Baseus 3-in-1 charging cable suitable for USB Type-C, Apple Lightning and Micro USB devices.

Able to charge multiple mobile phones, in the same compartment, simultaneously.

A single two metre 10amp power lead, incorporating thermal overload protection, provides power to either 8, 16 or 24 charging compartments.

The key operated base compartments provide service access to the power supply unit/s and enable replacement of mobile phone charging cables.
