ERGOTRON CART STYLEVIEW ELC/LIFT W/LCD PIVOT LIFE

Full-Featured Medical Cart
The versatile and compact StyleView medical cart with electric lift provides 20 inches (51 cm) of adjustment to simultaneously move the worksurface and keyboard to match changing workflows. Designed for any caregiver, the electric lift removes user effort and supports multiple drawers and heavier loads. At the push of a button, caregivers can go from sitting to standing for a comfortable, ergonomic fit that adjusts farther and faster than our competitors’ electric carts.
