

OPC HIGH RISE FOOTREST

The OPC High Rise Footrest is designed for people who sit at benches, laboratory tables or any elevated desk or work space. (It is not designed for standing on.)

Designed and manufactured in Australia, the OPC High Rise Footrest is constructed of powder coated steel with a non slip covering on the adjustable height plate.

The plate can be angled or flat. It is secured by two bolts on either side of the footrest. (Allen Key provided)

Weight: 7.6Kg

Maximum height: 365mm
