POSTURA®+ SLED BASE CHAIR

High performance and superior ergonomics.

The Postura® + sled base chair with its sinuous design is great for the modern day classroom. Reconfigure a space with ease with its lightweight and agile frame.

Features

- Ergonomically designed to maximise comfort and concentration over long periods of sitting.
- The ultimate chair for durability and versatility.
- Polypropylene shell with a superior metal sled frame.
- Back ventilation is suitable for the Australian Climate.
- Easy to clean, anti static polypropylene stays cleaner and looks better longer.
- Hot stamp with your logo or tagline option available on the front of the chair.
- Stackable and lightweight for students to move around (stacks to 5 high).
- Trolley also available as an optional extra. Designed for one person to easily and safely move a single stack of chairs.

The colours shown have been reproduced to represent actual product colours as accurately as possible, however actual colours may vary. We recommend checking your chosen colour against a sample colour swatch, as different screen and printing settings may affect the representation of the colour. Due to the manufacturing process, keep in mind that all colour samples may still have minimal colour variations to the finished product.

sebel

How to identify the height of a Postura Classic or Max chair:

1. Ensure the chair is on a flat and level surface.

2. Measure the perpendicular distance from the floor to the highest point of the front leg, this is not in line with the highest point of the seat.

3. This height is the seat height, and corresponds to a specific chair.

Example: 350mm seat height, is a Postura Max - Size 3
