SEBEL INTELLECT WAVE CHAIR

Intelligent Classroom Seating.

Durability that passes every test.

Engineered to withstand the toughest classroom use, Intellect Wave chairs are incredibly durable and their clean visual form creates a fresh modern look. Elliptical tubing provides superior strength and the lightweight polypropylene shells resist scratching, fading, chipping and denting. The unique shell design has all the proper curves to support functionality and ergonomics in the classroom. The result is classroom seating that gives you years of low maintenance service.

Seating that performs brilliantly
Comfortable student seating should be viewed as an investment not an expense. Students spend more time seated in classrooms than ever before. Pressure on both schools and students to perform well on standardized tests often results in supplemental instruction which can mean less recess or physical education time.

Features:

- Wide and passive flexing back offers greater ergonomic support and comfort
- Elliptical tubing is twice as thick as

round tubing making it stronger and more durable
- The poly shells feature a ribless back and interior welds on the bottom of the chair, making it easy-to-clean
- Integral handle enables easy movement
- Conforms to all tests for back strength and durability, seating drop, seating impact and leg strength
- Stacking
- Linking available
- Optional dolly for easy transportation

The colours shown have been reproduced to represent actual product colours as accurately as possible, however actual colours may vary. We recommend checking your chosen colour against a sample colour swatch, as different screen and printing settings may affect the representation of the colour. Due to the manufacturing process, keep in mind that all colour samples may still have minimal colour variations to the finished product.
