Colours:

The colours shown have been reproduced to represent actual product colours as accurately as possible, however actual colours may vary. We recommend checking your chosen colour against a sample colour swatch, as different screen and printing settings may affect the representation of the colour. Due to the manufacturing process, keep in mind that all colour samples may still have minimal colour variations to the finished product.

How to identify the height of a Postura Classic or Max chair:

1. Ensure the chair is on a flat and level surface.
2. Measure the perpendicular distance from the floor to the highest point of the front leg, this is not in line with the highest point of the seat.
3. This height is the seat height, and corresponds to a specific chair.

Example: 350mm seat height, is a Postura Max - Size 3
